JIRA PROJECT, DEC 2022

SMART WEATHER WITH JIRA

Epic 1: Live weather updates for any location

User Stories

1. As a Pharmacist, I want to get Live Weather updates for my location so that I can have enough weather-related medicines to serve people
2. As a Hotelier I want to have a daily weather forecast notification for my hotel's location so that I can optimize the commercial benefit of my activities
3. As a travel agent, I would like to get weather updates for my travel locations so that I can plan the itinerary of my clients appropriately

Epic 2: Show History tab to registered users

User Stories

1. As a travel agent, I would like to see my history over the past six months so that I can plan better for my clients the following year.
2. As a farmer, I would like to see the weather history over the past year so that I can plan when to harvest or plant for the next season
3. As a tourist, I would like to see the history of weather so that I can plan my next holiday trip well

Epic 3: Provide severe weather advisory to registered users on the portal/app

User Stories

1. As a school principal, I would like to get severe weather advisory so that I can advise parents and students when it is safe or not safe to come to school.
2. As the logistics manager, I would like to get severe weather advisory so that I can inform my delivery guys when not to travel in order to avoid accidents
3. As a Sports coach, I would like to get updates on severe weather so that I can reschedule sports events for my team

Epic 4: Show satellite images on the app/portal

User Stories

1. As a delivery truck driver, I would like to see satellite images of my destinations so that I can travel safely and avoid dangerous roads
2. As a travel agent, I would like to see the satellite images of tourist locations so that I can convince tourists in making the right travel plans
3. As an uber driver, I would like to view satellite images of destinations of prospective clients so as to be able to drive safely.

Epic 5: Register Users

User Stories

1. As a farmer, I should be able to register with my email so that I can view weather updates of forecasts
2. As a tourist, I should be able to register on the mobile app so that I can receive weather updates about my destination
3. As an Uber driver, I should be able to register on my mobile phone so that I can see the satellite images of my destination
